## 1. Layout and file settings

This page presents instructions for preparing camera-ready abstracts for SIMS-22. All abstracts should be submitted as a PDF file (.pdf) using the following guidelines. The length must be one page including figures and tables. The abstract book will be printed in color. Use ISO A4 (210 mm × 297 mm) size paper, making sure that there is a margin of 25 mm on top/bottom/left/right sides. As the default setting of this file, we recommend embedding all the fonts used in your abstract.

## 2. Text, Tables, Figures, Equations, and References

In the main text, Times New Roman font in 11pt size and single line spacing should be used. Use Symbol font for Greek letters. Otherwise, the main text can be written in free format. Samples of tables, figures, equations, and references are shown as follows.

Table 1. Table caption (Times New Roman in 11pt) above is preferable to be centered.

	A = 0.56	B = 0.69	C = 0.75	D = 0.100
AB <sub>1</sub>	14.0640	18.5620	22.0817	18.90732
DA <sub>5</sub>	246.7889	255.9483	284.6633	262.24264

Figure 1. Figure caption (Times New Roman in 11pt) below is preferable to be centered

Displayed equations, *e.g.*, “Eq.(1)” are preferable to be indented or centered.

$$\sum |M_g^{viol}|^2 = g_s^{2n-4} (Q^2) N^{n-2} (N^2 - 1) \quad (1)$$

## References

Times New Roman font in 11pt should be used. All of the references are recommended to be numbered in the order that they appear in the abstract. It is recommended to use numbers in square brackets in the text where a paper is cited (*e.g.*, [1]).

[1] You can write each item in free format.
